Beautiful Image Centers Weight Management Program
Patient Contract

Change your Health - Change your Life

As a participant in the Beautiful Image Centers Weight Management Program, I understand that this is not a diet but a medically supervised program to alter metabolism. This program not only reduces stored fat but redistributes these deposits to a more natural physique. Due to the medical methods used to harness the powerful effects of the body's metabolism, it is critical to adhere to all details of the program. Noncompliance can not only negate progress but also potentially work in reverse putting on abnormal fat deposits.

I agree to comply with all prescribed details of the Beautiful Image Centers Weight Management Program and to be truthful with its administrators.
